Stacho, L.L.

Minimax theorems beyond topological vector spaces. (English)

Acta Sci. Math. 42, 157-164 (1980).

<http://www.math.u-szeged.hu/acta/>

Keywords : topological spaces; interval spaces; convex analysis; quasiconvex function;
Dedekind complete interval space

Classification :

***49K35** Minimax problems (necessity and sufficiency)

49K27 Optimal control problems in abstract spaces (nec./ suff.)

47H10 Fixed point theorems for nonlinear operators on topol.linear spaces
