

Here is a concept lattice corresponding to the 16 hotels and the following attributes:

- **breakfast**;
- **air-cond** (air conditioning);
- **parking**;
- **close** (not more than 600 m from the conference site);
- **cheap** (less than 10 000 HUF/person/night).

The last two attributes are certainly disputable. There are quite a few hotels just a bit above 10 000 HUF, and none of the hotels is really far; the maximum is about 1 400 m.
